BLUEGAME

FOR
BLUEGAMERS
ONLY.

MAKE
THE FLOW
FOLLOW YOU.

I'M OPEN

LENGTH OVERALL (LOA)
16.57 m 54 ft 4 in

BEAM
5 m 16 ft 4 in

DRAFT @ FULL LOAD
1.34 m 4 ft 5 in

FUEL CAPACITY
1.800 l 475 gals

MAX SPEED
35 kn

CRUISE SPEED
32 kn

I'M ALWAYS A WAVE AHEAD.

I proudly belong to "generation 2.0" of the BG range; the same rebel spirit to conventions, same determination to convince the most experienced boaters, with a mix of head-turning design, striking spaces and unmatched performances. Much more than the simple evolution of the species.

BLUEGAME

DON’T BE
NARROW-MINDED.

CHOOSE
THE FULL
OPENNESS.

NEW SENSATIONS TO FEEL.

Feel free to prepare your favourite cocktail from the bar two steps away from the sea.

BLUEGAME

WITH ME, YOU'LL NEVER LOSE TOUCH WITH THE SEA.

My wide swimming platform is at your service
for launching the dinghy or the toys,
or just as a relaxing immersed area.

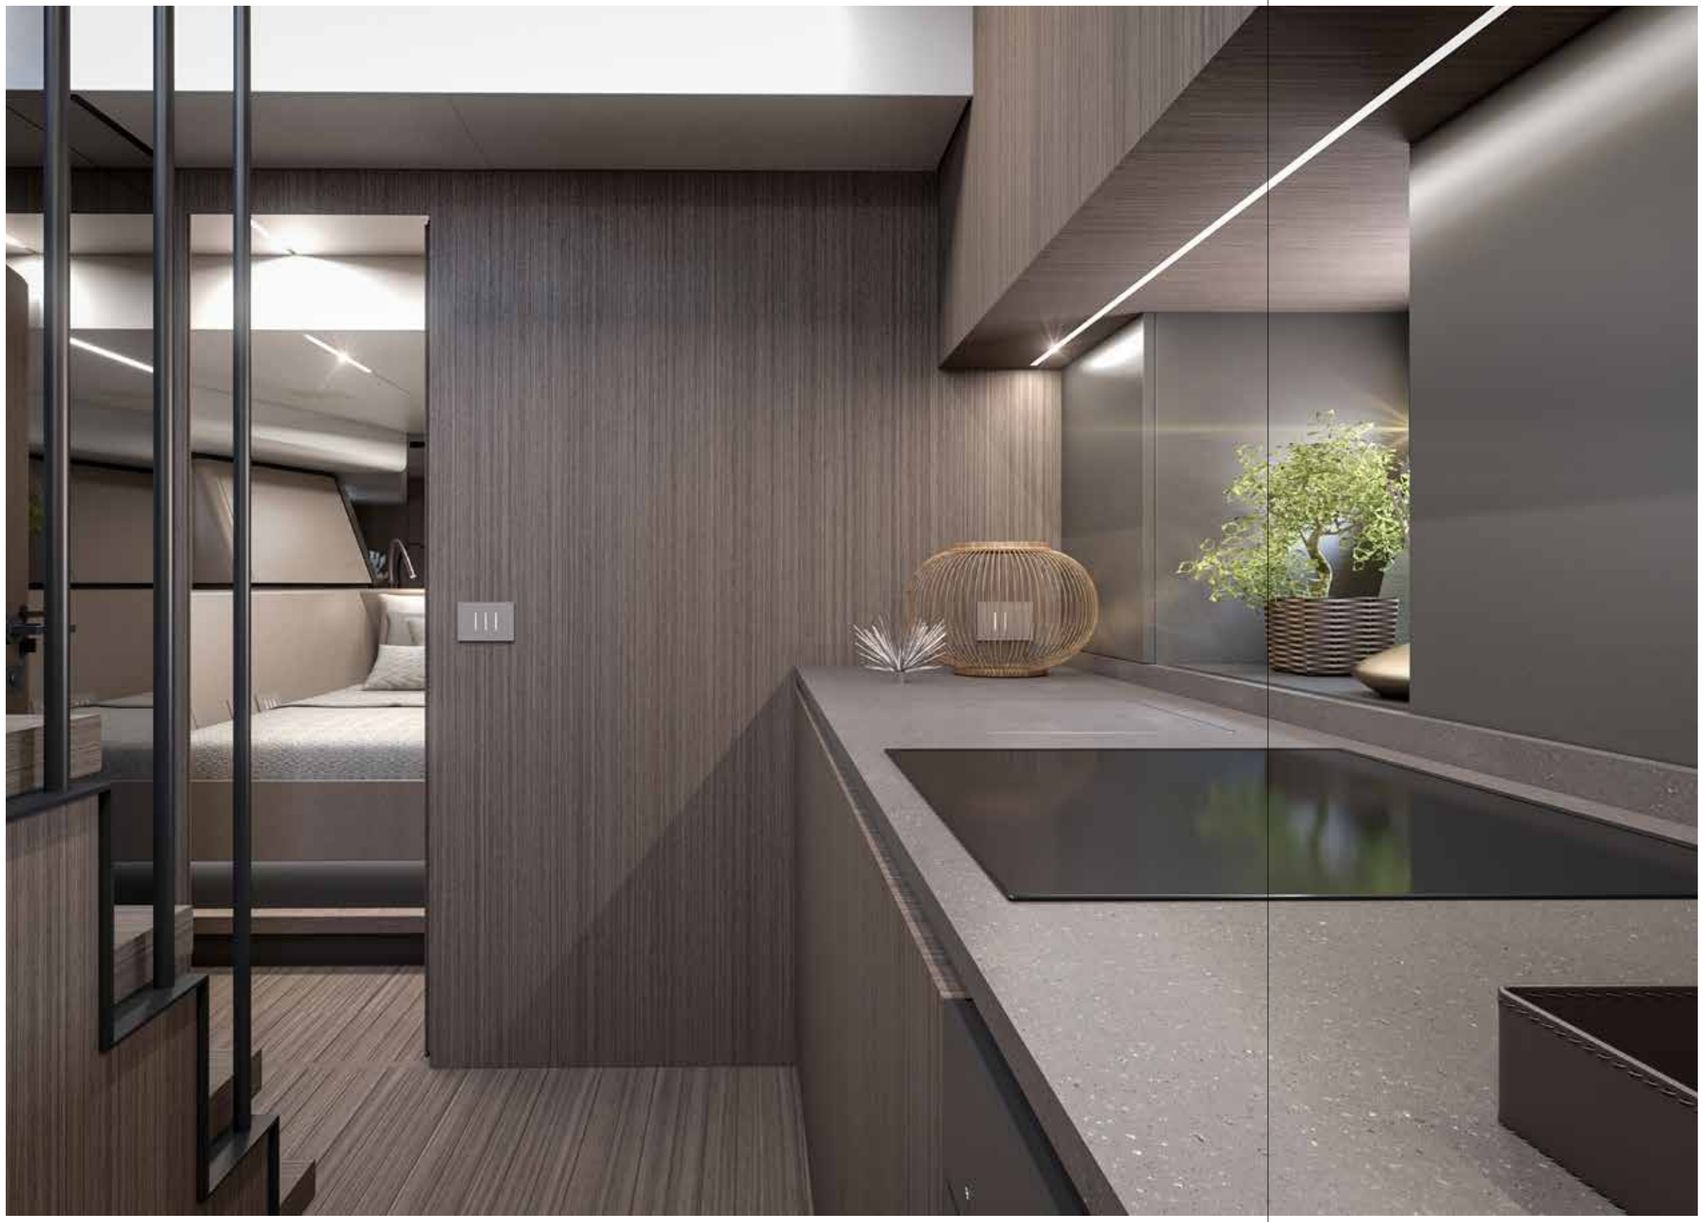
BLUEGAME

BLUEGAME

IN MY COCKPIT YOU CAN EXPERIENCE THE SEA AT 360°.

Grab my helm and take me to our next destination.

When the landscape satisfies you,
take the ladder, climb on my hard top
and spot our next destination.



LOWER DECK. HIGHER POSSIBILITIES.

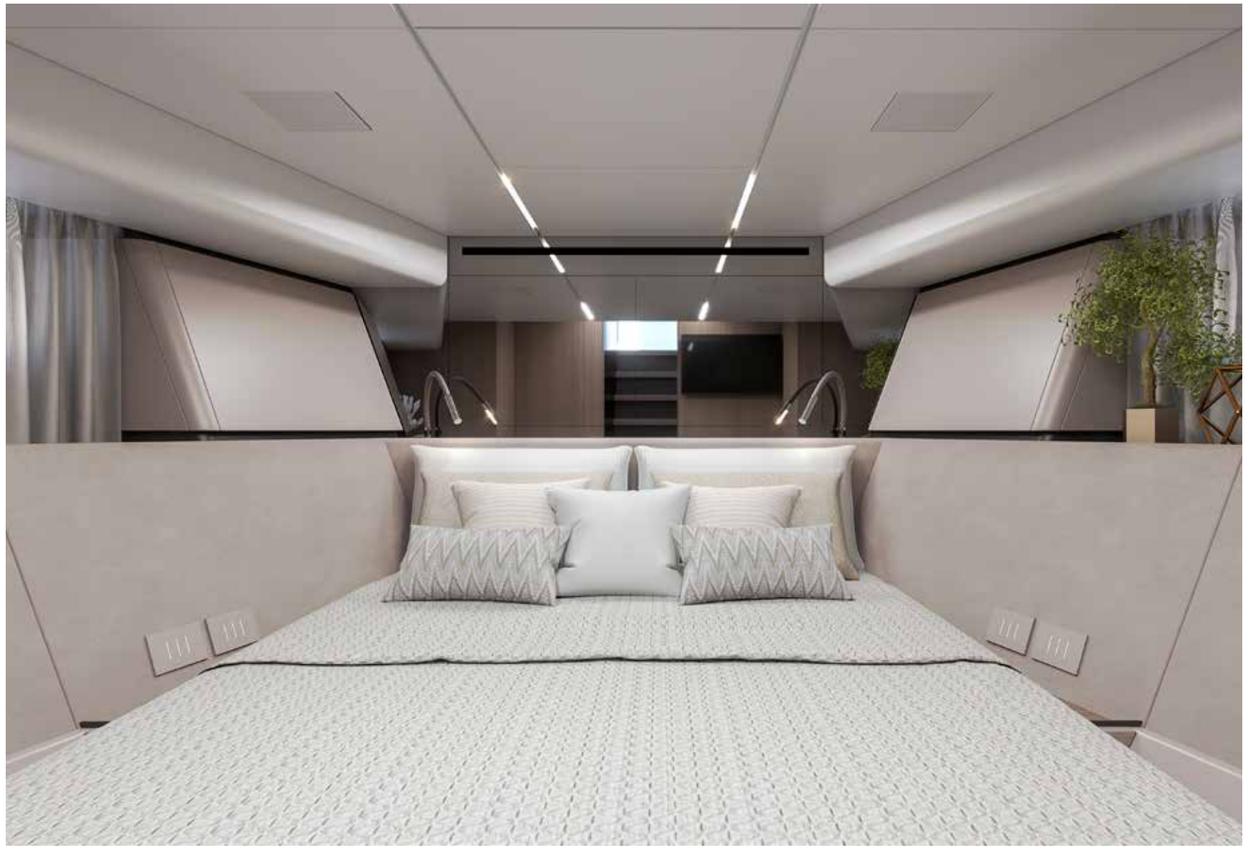
Choosing the compactness of Volvo IPS engines greatly amplifies the spaces below deck.

I'M REFINED

SPACE, SPACE, SPACE, SPACE.

Would you guess that these pictures
are taken on an open yacht?
Yet it's not an optical trick.
Meet me and see with your own eyes.

I'm the only open yacht of my category
that can offer you a true full beam owner
cabin, elegant and furnished.



My layout is smart and flexible.
You can choose between two or three cabin proposals. Both boast one additional cabin for the crew.

** The data relating to the speed of the vessel refers to the OPT engines.

BLUE MARINE FOUNDATION

THE RESPONSIBLE DEVELOPMENT OF BLUEGAME.

Responsible development is the driver of Bluegame's design decisions. As a Sanlorenzo brand, Bluegame contributes to the company's commitment to the logic of sustainability, in a continuous search for a combination of profound attention to design, a sophisticated high-tech approach and development carried out with respect for the environment and the society that surrounds it.

The responsible approach to the social and environmental sphere derives from the very nature of the group, shaped by various historical events, such as the unique link with local workers and the location of the headquarters and its construction sites within the Montemarcello nature reserve, precisely in Ameglia (SP), in an area of 135,000 square metres on the banks of the river Magra.

The construction site in Ameglia, due to the nature of its location, is covered by an Environmental Management System and a Health and Safety at Work Management System certified according to ISO standards. This allows Bluegame to operate by guaranteeing its employees the best working conditions and compliance with current regulations. The site is also powered by self-produced renewable energy through an almost total coverage of solar panels.

The company's commitment also translates into design choices that unite and elevate all Bluegame yachts. This is the reason for the decision to equip them with the most efficient propulsion systems currently available on the market, the Volvo IPS, capable of reducing consumption by over 20%. In addition to this, there is the choice to use advanced materials and technologies that guarantee lightweight construction with reduced impact, such as carbon fibre, light wood for non-structural parts and the infusion lamination process for the hulls.

Particular attention has been paid to the energy efficiency of the product, with all Bluegame models designed to be covered with solar panels, which for some models can reach up to 30 square meters (56 panels). The models are also equipped with a grey and black water treatment system that allows them to be reused or discharged overboard. Finally, the highly efficient thermal break glazing, which can be fitted to all BG and BGX models, insulates the interior environment and considerably reduces the consumption of air conditioning.

Over the years, the company has also promoted a series of pilot projects that have led to important applications on board, such as the use of naturally tanned leather and experimentation with balsa and basalt, i.e. recycled and recyclable materials, for internal compartmentation.

The sensitivity to environmental protection has led Bluegame to become a member of the Blue Marine Foundation (BLUE), a charity dedicated to the protection of the sea through measures that include the creation of marine reserves, the restoration of vital habitats and the development of sustainable fishing models.

As a brand of Sanlorenzo, Bluegame contributes to the commitment to achieve the 17 Sustainable Development Goals presented in Agenda 2030, the United Nations program.
